

Alam Maritim (M) Sdn Bhd, is an integrated offshore services provider in the oil and gas industry. In line with our expansion, we are seeking suitably qualified candidate who is highly motivated to join us for the position of:

## **SAP SUPPORT EXECUTIVE**

### **JOB OVERVIEW:**

- Performs ABAP programming, design, testing, and debugging work related to the implementation, enhancement, and support of SAP modules.

### **JOB SCOPE:**

- Designs, develops, codes, and tests complex programs for SAP modules and functions using ABAP programming language.
- Creates specialized reports for SAP modules using ABAP programming languages.
- Designs forms and screens for SAP modules using tools such as SAPscript and SmartForms.
- Debugs and corrects SAP module problems by using ABAP programming language to implement OSS notes.
- Modifies system screens to provide default values and eliminate unnecessary fields using transaction variants.
- Interfaces with sub-systems to ensure the proper integration of business processes and procedures with information technology and to identify customer solutions.
- Assists in defining technical requirements for on-going systems maintenance and future functionality to meet District requirements and improve system efficiency.
- Provides technical support to users on matters related to programming of SAP modules.
- Prepares comprehensive and thorough technical program documentation including but not limited to specifications, test conditions, test plans, and test data.
- Trains users in the use of forms and complex reports and provides technical assistance in defining authorization roles, custom workflows, and other related areas.
- Maintains effective and cooperative working relationships with process owners, technical and functional team members, and users.
- Performs related duties as assigned.

## REQUIREMENTS
